

# Australia Entry Requirements

## Electronic Travel Authority (ETA)

- All US/Canadian Passport holders require an ETA to enter Australia.
- Visitors must download the Australian ETA app for free from the App Store (Apple) or Google Play Store (Android). This must be downloaded onto your cell phone, not a computer or tablet. For more information see "Apply using the Australian ETA app."
- We encourage travelers to apply for an ETA at time of deposit to prevent any unnecessary last minute delays.
- In most cases, you will be notified of the result of your application immediately, however, there occasionally may be a delay of up to 12 hours.

## COVID Information

**Australia no longer requires visitors to be vaccinated.**

### Should you test positive for COVID during your stay:

- You must register your positive test result [here](#) as soon as possible to connect you to the best care and recovery plan appropriate for you.
- You must self-isolate in your accommodation for 7 days. You can only leave self-isolation after 7 days if you do not have a fever, sore throat, runny nose, cough, or shortness of breath. You do not need a negative COVID test.
- If after 7 days you still have a fever, sore throat, runny nose, cough, or shortness of breath, remain in self-isolation until 24 hours after your symptoms have passed.

## Day of Departure Checklist

- Passport
- Credit Cards
- Drivers License
- Prescriptions
- Printed copy of your ETA (in-case of technical system problems on departure/arrival).
